paign.

It seems a pleasant compensation that just when nature is looking her brightest. When mooriand and fell are tinged with the yellows and reas and russets of autumn, when the world is a flame of color, that the other beauties that have been absent so long, the gay women of fashion and the belies of society, are putting in an appearance on our public thoroughfares, disputing with nature her claims to supremacy.

In this tuxurious age and amid all the other accessories and evidences of the city's wealth and prosperity, the feature of social life, and especially its fashionable life, are missed during the summer and early autumnal months while transferred out of town and to distant resorts of pleasure, and everything seems brighter and more animated with their return.

The streets present a gala appearance, the women contributing not a little to the panorama which unfolds itself, their bright colored guwns lending lustre to the enlivening acene.

The season promises as much gayety as ever and the number of small clubs and other co-teries of friends formed both among ladies and gentlemen, will have the effect of keeping up a great deal of social activity, inde-pendent of the larger events. People wh have been away and thrown much together during the summer, have formed little fra-ternities, as it were, to keep up associations, and many of these groups have arranged to dinners, card parties and other like forms of entertainment, and sometimes for small dances during the season.

An effort was made Thursday evening t hold a meeting of the Omaha lodge of Elks in order to take some definite action regarding the affairs of the club, which are now under the direct control of the louge, but the members instrumental in calling the special meet ing were not present and definite action look to the liquidation of the club debt could be taken. While the club is in excellent not be taken. condition and has been paying its own way since the lodge took matters in hand, it still owes some mouey, small in amount, it is true, but the board of control feel that the debt should be liquidated and in this they have the support of all lodge members. Something should be done to relieve the stress and place the club upon the plane where it deserves to be, alongside the leading clubs of the western country. It has a very large clientelle and with prope work the balance still due should be easily

The members of the athletic club are on the qui vive for the opening of the new club house on Harney street. Everything is nearly finished and the details of the opening night have been arranged, but as yet Presi-dent Ames prefers to keep the programme in the dark. The house is wonderfully well adapted for the purposes in view and will undoubtedly be the popular resort for club men during the dreary winter evenings soon to come. The apparatus is the best in the market and no expense has been spared to make it equal to the best appointed athletic clubs in the country. It is, of course, a pity that the house could not have been larger, but it will undoubtedly last the club until the expiration of the lease which it has taken upon

It is very rare that the representatives of metropolitan papers are called upon to write of a more brilliant reception than that which was accorded Senator and Mrs. Charles F. Manderson by Mr. and Mrs. J. N. H. Patrick Wednesday evening at Happy Hollow. Certainly the event has never been equalled in Omaha and will continue for a long time to come, as it is now, the talk of the exctusive circles of society.

There have been many handsome recep tions and dancing parties given in Omaha in the past, but none can in any wise compare with this event in point of brilliance, in lux-urious surroundings and in the delightful

charm which prevaded it. Patrick residence exteriorly is fashioned much after an old English country house. It nestles among the trees in Dundee Place, the approaches to it being through long lines of maples and cottonwoods. To the causual passer-by it would give the impression of a comfortable home of well-to-do people. Its broad piazzas give one the idea of rest and contentment while the out buildings show the careful husbandman at his best. But all these thoughts are banished when one sees the interior of this ideal home of gentle people. No greater contrast could exist than that between the exterior and interior of Happy Hallow. is plain and unpretentious, the other is upon a scale of magnificence seldom equalled even in these days of lavish display,

was not alone the wonder of the stranger to Omaha who had been invited to the reception, it was equally a matter of delightful surprise to those who have dwelt in Omaha for years.

The hallway in the center of the residence

is imposing in its proportions, being almost square in size and making a charming place the display of the rare works of art which Mr. Patrick has collected in his tours abroad. The gallery overhanging the hall gives it the appearance of some feudal court and decorated with the fleur de lis upon a sage background gives a warm color to the apartment. Bierstadt's best picture, "A View of the Matterhorn," occupies a prominent place on the north wail of the hallway above the gallery, while "Les Ecluses," by Peter Alfred Grees, one of the gems of the collec-tion, hangs on the west side. There are other just as rare paintings hancing on the east and south walls, while in the southeast corner stands the magnificent statue of Jael, in front of heavy dark plush curtains. A smaller hallway runs from the central hall to the east, on either side of which are the drawing rooms and dining room, exquisitely decorated and hung with masterpieces, while here and there vases stood in the corners and niches, in themselves representing small fortunes. The dining room on the south was made

additionally beautiful by the massive mahog-any table, which was ornamented by cut flowers in exquisite rose bowls in addition to a wealth of cut glass. From the dining room the windows led out into small rooms, which had been ingeniously on the porch, and these made charming by rugs, ottomans were made charding by rugs, ottomans and small tables which held pretty colored fairy lamps. It was such a graceful and dausty place for tete-a-totes that throughout the evening they were constantly occupied until the service of refreshments when the tables were utilized. The long piazza on the east had been canvassed and enclosed with awnings and here the guests were permitted to dance in addition to the port cochere between the manor house and the bachelor apartments of Mesars Robert and John Patrick on the north which had been floored over. Palms, forms and rare exotics changed these spaces into bowers of beauty. Midway of the porch a band platform had been erected for the occupancy of the Second infantry band from the garrison, which gave inspiration to the promenaders, while to the north a second band stand was occupied by the Musical Union orchestra, under the direction of Harry Irvine, which furnished the dance music. The rooms of Messrs. Robert and John Patrick were turned over to the devotees of high live, seven-up and hearts, and here prominent politiciars of the state and nation discussed national problems over the cards and cigars, or the soldiers present discussed the last general order of General Schofield.

myself to keep from falling.

"This continued until my hearing became
affected. At this time I began to feel anxious
about my health; there was a continual buzzing and rouring noise in my ears, sharp shooting pains in the shoulder blades: I had no appetite and what I did eat seemed to distress
my stomach.
